Experience

TAP Academy July 2026 – Present
Full Stack Developer Intern

- Developed full-stack applications using **Java, Spring Boot, Hibernate, MySQL, React, and REST APIs**, following clean and scalable software architecture.
- Built backend modules using **Spring Boot**, implemented secure authentication, developed REST endpoints, and optimized API performance.
- Designed responsive **React components**, improved page load performance, and enhanced overall application usability.

Projects

CollabDock – Collaborative Developer Workspace August 2026
React, Tailwind CSS, Spring Boot, MySQL, JWT Authentication

- Built a Java-based full-stack collaboration platform enabling developers to create tasks, manage sprints, and collaborate in real time.
- Developed **Spring Boot REST APIs** with **JWT authentication**, activity tracking, team management, and optimized database queries.
- Built reusable **React components**, implemented client-side routing, and managed application state to deliver a responsive user experience.

CampusFix – University Utility and Complaint Portal July 2026
Java, Spring Boot, SQL, REST APIs, JWT, React

- Developed a full-stack service portal enabling students to submit complaints, track request progress, and request campus services.
- Designed and developed **Spring Boot REST APIs** using layered architecture, input validation, exception handling, and **JWT-based authentication**.
- Integrated a **React admin dashboard** for managing service requests, worker assignments, and analytics.

Achievements

- Solved **600+ problems on LeetCode**, strengthening data structures, algorithms, and problem-solving skills through consistent practice.
